

# Join Eduspots' 2026 Digital Access Campaign as a Digital Champion!

**When access changes, everything changes**

This May, EduSpots is looking to partner with individuals, businesses and schools across the world to improve access to digital devices and training across **50 communities in rural Ghana.**

## You can get involved by:

**Making a financial donation**  
(£150 or 2200 Cedis for one tablet)

**Organising a device fundraiser**  
(e.g. a social media detox!)

**Organising a device collection**  
(if you have IT support)

## We can support schools and businesses with

- ✓ Mentorship and resources
- ✓ Quality online talks on digital equity
- ✓ Digital Champion certificates and recognition
- ✓ References for student volunteering projects (e.g. DofE or CAS)
- ✓ Igniting sustainable digital equity, through local leadership

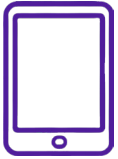

“

*I believe if students have the opportunity to use these kinds of devices, learning will be much easier and fun and many students will be dropping to the Spot.*

(Aduko, DigiLit club member, Kalpohin Spot)

”

**50%**

Only 50% of learners in a DigiLit baseline study agreed that they were confident in **turning on a digital device.**

**50**

Presently 50 learning hubs **average 2 devices each for 200 students**, with learners often barely getting to touch the screen.

**400+**

Over **400 local voluntary changemakers** across 11 regions of Ghana have signed up to open access to digital tools and training, and lead wider co-curricular clubs.

## DIGITAL FUTURES: ENABLING LEARNERS TO SWITCH ON A WORLD OF OPPORTUNITY

**Learning Hubs:** 50 community-led Spots enable communities to bring learners together to explore both online platforms and physical books, developing their curiosity, confidence and core literacy and digital skills.

**DigiLit Clubs:** 20 communities have chosen to lead DigiLit clubs for 600 learners, with local leaders accessing monthly challenge packs, WhatsApp for learning and peer mentorship.

**EduBytes Courses:** 100s of local changemakers are accessing bite-sized monthly courses delivered through a blend of Zoom, WhatsApp and practical tasks, enabling local educators to build confidence and capability in digital skills.

**EduSpots App:** Our App, in development with support of the Mastercard Foundation EdTech Fellowship enables local changemakers to track activities, membership and resource mobilisation, alongside accessing key resources.

“

*Before joining EduSpots, I didn't know that you could be in a "room" in an online space; now, I'm hosting Zoom sessions on safeguarding for headteachers across the district.*

(Hamidu Kaadri, Headteacher, Yamfo Spot)

”

*11 regions of Ghana have signed up to open access to digital tools and training*

# Steps for leading a fundraising campaign

1

## CREATE AWARENESS

- Build a team for the campaign, and delegate roles
- Gain permissions where necessary
- Identify your key audience (peers, customers, colleagues)
- Create your own campaign poster or video, emphasizing the impact
- Share our campaign animation, found at the QR code below.
- Ask EduSpots to offer an online talk!

2

## BUILD YOUR FUNDRAISING STRATEGY

Tried and tested ideas include:

- A sponsored social media detox or offline day
- Welcome inspiring tech speakers to an event
- Organise a hackathon for good
- Organising a gaming competition
- Leading a quiz on digital inclusion
- Teaching digital skills for a fee
- Organising a bake-sale (digital theme)
- Running a race in support, using digital tools to track
- Creating your own personal digital challenge

3

## ENSURE THAT DONATIONS ARE COLLECTED SAFELY

- Ask for donations via our existing Raisely page at: <https://eduspotsdigitalaccess.raiselysite.com/> or to our **MoMo 0595087801** for Ghanaian supporters.
- All cash donations should be carefully monitored, with dual signatures, and transferred online.
- Contact Priscilla Baffour at [pbaffour@eduspots.org](mailto:pbaffour@eduspots.org) for more information or to set up a specific tailored fundraising page.

4

## THANK SUPPORTERS AND SHARE THE IMPACT AFTERWARDS!

- Follow @eduspots across all social media streams (@edu\_spots on Instagram) to see the impact evolve.
- Tag us in any posts relating to your digital champions adventure!

# Tips for running a device collection

*Note that this type of support is best for those with IT teams in house who can support with data cleaning and repair if needed.*

## 1 DEFINE PURPOSE AND REQUIREMENTS

Be clear about who the devices are for (learners in rural Ghana), and the type needed (high quality, working, tablets, laptops or working smart phones).

## 2 SEEK PERMISSIONS

Schools and businesses should ensure the relevant people have given permission for the collection.

## 3 CREATE A CAMPAIGN POSTER / VIDEO

Include drop-off points and times, specific events, and details of EduSpots' work - contact us if you need further information, or view [www.eduspots.org](http://www.eduspots.org)

## 4 COMMUNICATE NEEDS

- What devices you accept (fully operational laptops, tablets, smart phones, projectors)
- How to prepare them (remove accounts, sign out, include chargers if possible)
- Request that all data is wiped prior to donation (gaining support in your team to check this before handover)

## 5 TRACK INCOMING DEVICES

Log each device as it arrives:

- Type, brand, condition (only accept high quality)
- Donor's name and email address
- Unique ID or label

## 6 THANK DONORS AND SHARE THE IMPACT

Make sure that you take the opportunity to thank people, and share links to EduSpots' work, so that they can follow our ongoing process.

**Any questions or suggestions, or want to build a wider Digital Futures partnership with us?**

Contact Priscilla Asamoah Baffour at [pbaffour@eduspots.org](mailto:pbaffour@eduspots.org) or +233 54 523 3368

**In Ghana, drop off your device at Pippa's Health Centre, Accra  
from 6am–8pm Mon–Fri; 7am–4pm Sat in May,  
with UK drop-offs possible on 1–1**

Together, we can create a world where every learner creates the futures they want to see for their communities, through education.
